About Me

I am a 22year old web designer based in Pretoria, South Africa. I Specialize in Design, whether it is web (interactive, responsive) or branding (logo, business card, etc.) or posters and the development of web applications.

I transform clients ideas and projects into visually stimulating and well optimized websites that conform to the clients highest standards using latest technologies that also conform to industry standards.

I have more than 4 years' experience in Design and development and I am keen to learn more and extend my skills in programming as well as brand management.

Hobbies:

Reading, Music, Illustration & drawing, design, Music, Cinema, television, Internet Surfing.

Side Projects:

Mobile First Music Player (www.Mwsiq.com)

Ajaxified Music Player (www.mwsiq.com/beta)

Music News Blog(Blog.Mwsiq.com)

Magazine (www.posh9jamag.com)

MysolNG (www.mysolng.com)

Technical Skills
